

# STATEMENT OF PURPOSE

Dear, Admissions Committee,

I am Martha Adeaba Daniels, a dedicated and ambitious student with a strong academic background in Health from West End University College in Ghana. My passion for health sciences has driven me to pursue further education and practical experience to enhance my skills and achieve my long-term career goals. My journey as a Pharmacist at the Ghana Health Service has deepened my understanding of the field and fueled my ambition to expand my knowledge through the MRes Science and Health program at the University of Portsmouth. My educational journey at West End University College equipped me with essential theoretical knowledge and practical skills in Health. The comprehensive BSc in Health program broadened my understanding of various health-related topics and instilled in me a strong foundation in the field. Through this program, I acquired expertise in analyzing health-related data, understanding healthcare systems, and developing effective strategies to address public health issues. Working as a Pharmacist at the Ghana Health Service has been a rewarding experience that has allowed me to directly impact the health and well-being of individuals in my community. My role involves dispensing medications, providing patient counseling, and ensuring the safe and effective use of pharmaceuticals. This hands-on experience has deepened my appreciation for the critical role of pharmacists in healthcare delivery and has inspired me to further specialize in research and innovation within the field of health sciences. The MRes Science and Health program at the University of Portsmouth resonates with my academic and professional aspirations. I am particularly drawn to the program's emphasis on research methodology, data analysis, and critical evaluation of scientific literature. I believe that the program's multidisciplinary approach will provide me with the necessary tools to conduct impactful research in the field of health sciences and contribute to advancements in healthcare practices. My specific interests within the MRes Science and Health program lie in exploring the intersection of pharmaceutical sciences and public health. I am keen on investigating how innovative drug therapies can address emerging health challenges and improve patient outcomes. By delving into topics such as drug development, pharmacovigilance, and health policy, I aim to contribute substantively to the evolution of pharmaceutical practices and policies that benefit diverse populations. Moreover, I am excited about the prospect of collaborating with esteemed faculty members and fellow researchers at the University of Portsmouth. The opportunity to engage in robust academic discussions, participate in research projects, and leverage state-of-the-art facilities is invaluable for my academic and professional growth. I am eager to immerse myself in a vibrant research community that fosters creativity, critical thinking, and collaboration to address complex health issues. In the long term, my goal is to bridge the gap between research and practice in the field of health sciences. I envision myself leading innovative research projects that translate scientific discoveries into practical interventions to improve healthcare delivery and patient outcomes. Through continuous learning, exploration, and collaboration, I aspire to be at the forefront of advancements in pharmaceutical sciences and public health, making a meaningful impact on global health challenges. In conclusion, the MRes Science and Health program at the University of Portsmouth represents a pivotal step in my academic and professional journey. I am excited about the opportunity to immerse myself in rigorous research, expand my knowledge base, and contribute to the advancement of health sciences. With my strong academic background, practical experience as a Pharmacist, and unwavering passion for healthcare innovation, I am confident that I am well-suited to excel in this program and make significant contributions to the field of health sciences.

Yours sincerely,

Ms MARTHA ADEABA DANIELS
